Reference list requirements

The list of publications should be:

- numbered
- in chronological order

Each publication should include:

- a hyperlink to the article in the journal’s web sites
- the journal's impact factors
- the journal's ranking within its category (field)
- single stars (or an equivalent symbol) to indicate corresponding authors
- double stars (or an equivalent symbol) to indicate equal contributions

The list of publications should not include:

- unrefered conference proceedings (these should be included in a separate section)
- submitted manuscript that have not been accepted (these should be included in a separate section)
- manuscripts in preparation (these should be included in a separate section)
